OUTREACHES

Integrated outreaches for the month were done in Makande which covered 4 points namely Chitete, Kudzanayi, Hurenje and Nyajena. This was done in partnership with ministry of health and child care. The aim was to contribute towards the 90 90 90 targets and at the same time

providing sexual reproductive health services to these people in hard to reach areas. The team offered the following services i.e. immunizations, family planning, HIV counselling and testing services, growth monitoring, dispensing ART, and treatment of minor ailments and VIAC. Health education was given where they were taught on condom use. There was over whelming attendance at Kudzanayi with high demand for VIAC services. There was also value addition to service when a 17 year old female was assisted to deliver safely at Kudzanayi. The outreach then proved to be a shot in time as there could have been danger of a home delivery. She was more at risk had she delivered at home as she had a retained placenta and was rushed to the clinic using the outreach vehicle where she was further assisted by the outreach staff in the safety of a health facility.

LIVELIHOODS PROJECTS

The organization operates in four livelihoods gardens namely Padare, ZIHOPFE and Charara and primary school in a bid to improve nutritional support and household income through availability of fresh vegetables for consumption they are fully utilizing their space to draw maximum benefits from their garden. At Charara garden their maize plants are now on a better stage and they are growing well. Padare they are growing covo and they have also planted maize.

SEWING PROJECT

The organisation's sewing project continues with out of school adolescents engaged in the making of reusable sanitary pads. The organisation chipped in with marketing strategies in schools to ensure viability of the project. Adolescents have applauded the skills they are getting with some testifying they can now use a sewing machine well and are confident to succeed. They managed to sell some of their pads and the organisation continues to market the project through various platforms. They have also engaged in ISAL from the proceeds of the sale of their pads in a bid to increase output from the project.

PSYCHOSOCIAL SUPPORT

Youth clubs and support groups are continuing to meet once per month holding their meetings at Nyamhunga and Mahombekombe. A total of 293 (154M 139F) have been reached during the month of December. They continue getting information on SRHR, Gender Based Violence, hygiene, child abuse, rights and responsibilities. A total of 51 (18M 33F) were reached during the month with information on anti early marriage and teenage pregnancies. The feedback gathered highlighted that adolescents lack information on family planning services though they are aware of the importance to abstain. Some however reported failing to abstain and they were encouraged to use protection whilst they should also engage themselves in activities that divert their attention from sexual activities.
